### Features & Benefits

- Strong enough to handle small to medium volume foodservice operations with light to medium storage needs.
- Use in walk-in coolers, freezers, dry storage, warewashing areas, loading docks or front of the house. Withstands storage temperatures -36° to 190°F (-38° to 88°C). Impervious to moisture, chemicals, salt, food acids and humidity.
- Posts and traverses are made of a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Stronger than common wire shelving and lighter in weight than Camshelving Premium Series and Elements Series. Breakaway left and right traverse dovetails snap apart and attach easily to secure shelf traverses to posts.
- Shelving Units interconnect in straight lines with shared posts. Uniquely engineered Post Connectors offer exceptional cross stabilization. Weight bearing is uncompromised and space is maximized. No add-on clips or "S" hooks required.
- Use corner connectors to add shelves in corners or to install intermediate shelves between 2 starter units. Unique patented design ensures maximum space utilization.
- Posts and traverses wipe clean. Traverses and shelf plates remove easily for cleaning.
- Shelf traverses can be removed and adjusted at 4" (10,2 cm) increments.
- Sturdy reinforced nylon foot adjusts easily to level units.
- Requires some assembly with minimal parts. Use a rubber mallet only.
- Lifetime warranty against rust and corrosion (posts, traverses and shelf plates).
- Available in 1 color – Brushed Graphite (580).
